HARMONIUM

Playable Virtual Instrument

PRODUCT DESCRIPTION:

Harmonium usually belongs to the family of free-reed aerophones. The instrument is a small, tabletop size, organ which has bellows at the back that is pumped by one hand while the other hand plays the keyboard.

A standard Harmonium always has a wooden box known as body, handles to move the instrument, bellows, keys, stops (main and drone), reeds, reed board, coupler and scale changer. Today in India it is widely used in all forms of Indian music be it classical, Hindustani, devotional or film music.

Bollywood Harmonium: This is a fine realistically sampled “Harmonium” Virtual Instrument. Pristinely recorded at Beatfactory Studios, New Delhi by **Music Producer, Gaurav Dayal** and **Studio Engineer, Rajat Nagpal.**

Equipment Used: *Wunder Audio PEQ1R – Neve Clone EQ/ Empirical Labs Distressor.*

CONTROLS & FX

Octave : *on/off positions* - In the on position another layer of a low octave harmonium switches on.

Key Noise : *on/off positions* - In the on position the nature sound of real harmonium key sounds captured are switched on, giving the preset an authentic mic'd sound.

Wind : *on/off positions* - In the on position, The wind sound of the harmonium switches on, this is great sound when playing chords.

Legato : *on/off positions* - In the on position the polyphony is mono and legato style mode is implemented with scripts for lead style playing.

Attack : *on/off positions* - In the on position the patch has a quick attack, giving it a sound almost like an organ, for quick phrase playing.

Chorus Knob : When turned from left to right a beautiful chorus effect is mixed into the patch , making the sound richer and more pleasing.

Stereo Width Knob : When turned from left to right ,the spatial width increases, making the sound wider and more 3D i, this helps achieve a larger than life sound.

Distortion Knob : When turned from left to right there is an increase of tube like second order harmonic distortion in the sound, making it fuller, thicker harmonically more rich.

Reverb : A Wet Control and a Dry control is provided to give you total control, making the right blend of the wet signal and the original dry sound.
